Cut a piece of cloth as wide as the door and reaching within a foot of the top and the bottom. On this saw rows of pockets. Small pockets may be used for buttons and for hooks and eyes, while larger pockets serve to hold paper patterns and other things that the home dressmakers must have near at hand.

WINTS THAT SHOULD BE HELPFUL

Social Corner Editor: This is my first letter to The Social Corner Sisters and I want to ask you to please send the receipe for rhubarb wine. I made some last year and it was fine. I have mislad the recipe and will be giad to see it printed again. I read your letters every week and I like them very much I live quite a distance or I would sure join you. You seem to be a jolly crowd. Will send a few hints and hope they will help you:

Will send a nice potato pie recipe:
Pare a few potatoes and slice thin, season with pepper and sait, cut in an onion and put a piece of sait pork in.
Cover with water and cook till done. Mash a little so as to have them nice and moist. Make a fairly rich crust and cover a pie plate; pour in the stewed potatoes, taking out the sait pork; if dry, add a little water. Cover with crust as you would any other ple and bake to a nice brown. Use a cup of Hamburg steak in place of the sait pork and you have something tasty and nice for funch.

Will send a nice recipe for Goosenargh cakes: Take equal quantity of butter and flour, and rub it together with integers till it is a smooth ball; do not add water or milk; roll out one-half inch thick and cut with biscuit cutter; bake in a moderate over. Do not brown them.

As soon as you take them from the oven cover them with confectioners' sugar the thickness of the cake. This must be done while they are hot. Try these

An old white sheet or bedspread laid under the sewing machine makes it easier to find pins and needles that may be dropped and can be taken up quickly and shaken when the work is finished, leaving the floor under the machine free from scraps and threads.

By stringing buttons of like size and color together much time may be saved that would otherwise be spent in searching through the button box.

A small cushion attached to the sewing apron will keep pins and needles always at hand.

This is my method and I think you will find it worth trying if you are fond of meat loaf:

Chicken Loaf: One chicken, one loar of state bread, butter two tablespoons chooped parsley, salt, pepper, chicken broth. Boil chicken till tender. Remove, from broth and pick for bones. In a buttered baking dish put a layer of bread crumbs. The crumbs should be very coarse, the bread pulled in pieces with the fingers. On the crumbs dot generously bits of butter. Add a layer of chicken. The chicken should not be chopped, but prepared in thin slices. Add

cup of sugar and enough milk taken from the bread and milk to make a thin mixthe bread and milk to make a thin mix-ture. Combine with first mixture, add one-fourth teaspoon salt, one teaspoon vanilia extract and two eggs well beaten. Turn into buttered baking dish, bake one hour in moderate oven and serve with whipped cream or whipped evaporated milk, which latter often works in very nicely when one cannot ge teream.

SHORT CUTS IN HOUSEWORK

would surprise us to see how many new ideas could be adapted to our own new ideas could be adapted to our own use. A change in routine or in method that would be a real help to one house-keeper, might, of course, prove most unsatisfactory to her neighbor, and vice versa; but, on the whole almost any possible short-cut in the work of the home is worth trying out, at least.

In the first place, women who own vacuum cleaners seldom make them do their share of work. A cleaner is used
